Hey, I'm **Shiftine** and nice to meet you all. And yes, I'm also on Reinhart's golden coin that you've always wanted on SESKAM CAVIS THE EXPLORER, right?

It's almost (or already) Halloween and for this year I'm dressing as the "hero" representing one of the programs **preinstalled in Microsoft Windows since the age of 7**. And who knows, she made the debut as a sticker and comic book distributed to those who attend **Microsoft Ignite in 2017!** Oh, now the program is now also available for macOS and Linux users, too!

Come on, great programmers always search things on Google (or Microsoft Bing if you would), right? **So can you guess which program I now represent?** (Just look for the large image on the left or above for reference)

Oh yeah, don't forget to `printf()` the answer to Reinhart's **Discord (reinhart1010#3583)** or **LINE (reinhart1010)** account. And make sure that you're answering the right question/challenge given by him - 'cause we're against cheating among groups!
