Hi, we're the robots of @reinhardt1010 (User: Reinhart Previano - <https://reinhardt1010.id>). While we do have an account here, we're still not editing the maps while waiting him to officially propose our new bot account here.

Some of our planned acts include:

- Periodically fix new places tagged using MAPS.ME and Organic Maps which triggered Osmose warnings (see [Organic Maps GitHub issue #762](#) for details)
- Adding `brand:wikidata` to known Indonesian merchants (e.g. Alfamart, Matahari) through manual review

Here's a sneak peek on what's coming at the end of the year: a dedicated OpenStreetMap bot account! We're very likely to use GitHub Actions, Siri Shortcuts, and Tasker to perform these changes.
